

Itinerary & Inclusions

20 days St Petersburg to Vladivostok *Essentials*

Destination	St. Petersburg to Vladivostok (Year-Round)
Travel Dates	20 Days – Starts Tue, Thu, Sun from St Petersburg

Capital of Russia at the height of its Imperial era (1723-1918), St Petersburg is a dazzling mixture of baroque, rococo, classical and belle-epoque buildings created by Europe's leading architects of the day. Nevsky Prospekt is the city's main Parisian-style avenue, and radiating from it are grand boulevards and canal embankments lined with the former palaces of Russia's aristocracy. These days Nevsky is lined with world-name shops, alongside eateries priced from serf through to Grand-Duke... plus java-joints, internet cafes, museums, churches, theatres and more.

St Petersburg to Moscow – Sapsan Train, Economy Seat

Departure: Day 5 @ 9:00am**Arrival:** Day 5 @ 12:58pm

Moscow took over the role of Russia's capital when the Mongols razed Kiev to the ground in the Middle Ages... its famous gold onion-domes have the image of Russia you'll barely find in St Petersburg. Much of Moscow still bears witness to those early days. The Kremlin is a huge 15th-century citadel built when marauding Mongolian troops were still a real menace. Its enormous fortified walls guard the ancient Kremlin Cathedrals within, once the centrepiece of the Russian Orthodox Church – and now once again restored to religious use. The colossal Treasure of the Russian Tsars is now on view within the Kremlin too, securely displayed in the former Armoury Chamber. Muscovites are addicted to pleasure, and the city overflows with stupendous restaurants, bars, clubs, & coffee-shops. Winter was always the holiday-time in Russia (too cold to work outdoors on building or farming) and with that came theatres – Russians love a show, and the Bolshoi Theatre is world famous (opera & ballet, on their "No 2" stage whilst the main theatre's being rebuilt). Come in winter to see Russians at play (theatres shut in summer here!), or in summer take a stroll in the Botanical Gardens? Muscovites love to party, and the wild nightclubs or chic bars open until very late, year-round.

Irkutsk Station to Listvyanka

Irkutsk Station to Listvyanka

On arrival at Irkutsk Railway Station a local representative will be waiting for you on the platform. Shared vehicle transfer to your accommodation in Listvyanka village on the shores of Lake Baikal.

Baikal is the world's largest stretch of fresh water, and the largest lake on the planet. Formed by plate tectonic movements of the earth's molten crust, it's a unique environment where species long extinct elsewhere have their strange existence. Baikal has the only freshwater seals in the world – nerpa nerpa – stranded here thousands of miles from the sea. Still odder is the strange golomka, which lives at such depths – Baikal is the world's deepest lake, over a mile to the bottom – that it explodes due to pressure-change if netted and dragged to the surface. Some of the animals, fish, algae and plants found in Lake Baikal are unique – and as you gaze over this vast expanse of water you sense it may contain much more than has so far been discovered. Lake Baikal was the biggest problem that faced the Trans-Siberian Railway builders – its huge size (40 miles across) lay directly in the path of the railroad. Their first solution was a steamer accommodating the entire train, and ferrying it safely to the other side – but winter temperatures forced them to lay tracks directly over the pack-ice when the Lake wasn't navigable. Having lost several locos through holes in the ice (there are a few warm springs down there..) the Circum-Baikal Line was built.

The “Paris of Siberia’, For most visitors, Irkutsk is principally the gateway to nearby Lake Baikal. However, its charming streets with old wooden houses suggest an era when the journey here was not cosy nights in the starched sheets of a sleeper-wagon – but over a month of frost-bitten misery, desperate conditions, and nights in flea-bitten roadside taverns... and Irkutsk the welcoming comfort of a substantial city after the hideous journey.

Irkutsk to Vladivostok – Rossiya Train, 2 or 4 berth

Departure: Day 16 @ 8:03am

Arrival: Day 19 @ 7:07am

Vladivostok (“Ruler-Of-The-East”) was historically Russia’s principle Pacific-Coast port. Before the days of the Trans-Sib, there was almost no communication between the European and Asian ends of Russia, and the only transportation was by ship through the Arctic in summer. Vladivostok is a small but charming city with a slightly non-Russian atmosphere – the “sea-side” location, pleasant climate, and proximity to Japan and Korea lend it a cheerfully cosmopolitan character. It is, however, a small town, and sightseeing is fairly limited. Nightlife and eating-out is not, though – the city prefers its pleasures in large portions!

Please make your own way to the Primorie Hotel on arrival by walking - directions enclosed.
